

**Your trusted
partner**

Who we are?

A dynamic and growing company, FCO Oil Fileds Services relies on decades of experience from its diverse and large workforce. FCO Oil Fileds Services is focused on serving the Oil&Gas industry by providing services such as:

Exploration and drilling support

Fuel products trading

Procurement services

Logistics

With offices in the UAE, Iraq, and Turkey, we keep growing through building strong partnerships with international leading service providers which allows us to offer turnkey services. We focus on helping companies that specialize in the Oil and Gas industry and that aim to expand into the Middle East region, such as:

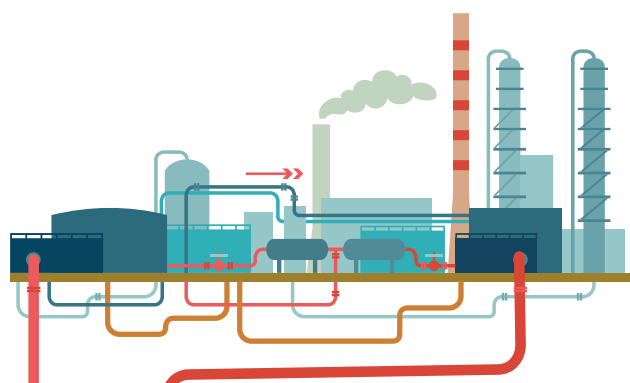

International engineering firms

Oil and Gas exploration

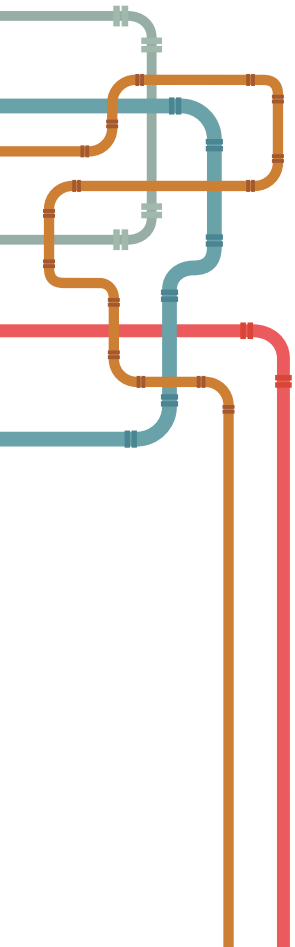

Private drillers

Vision

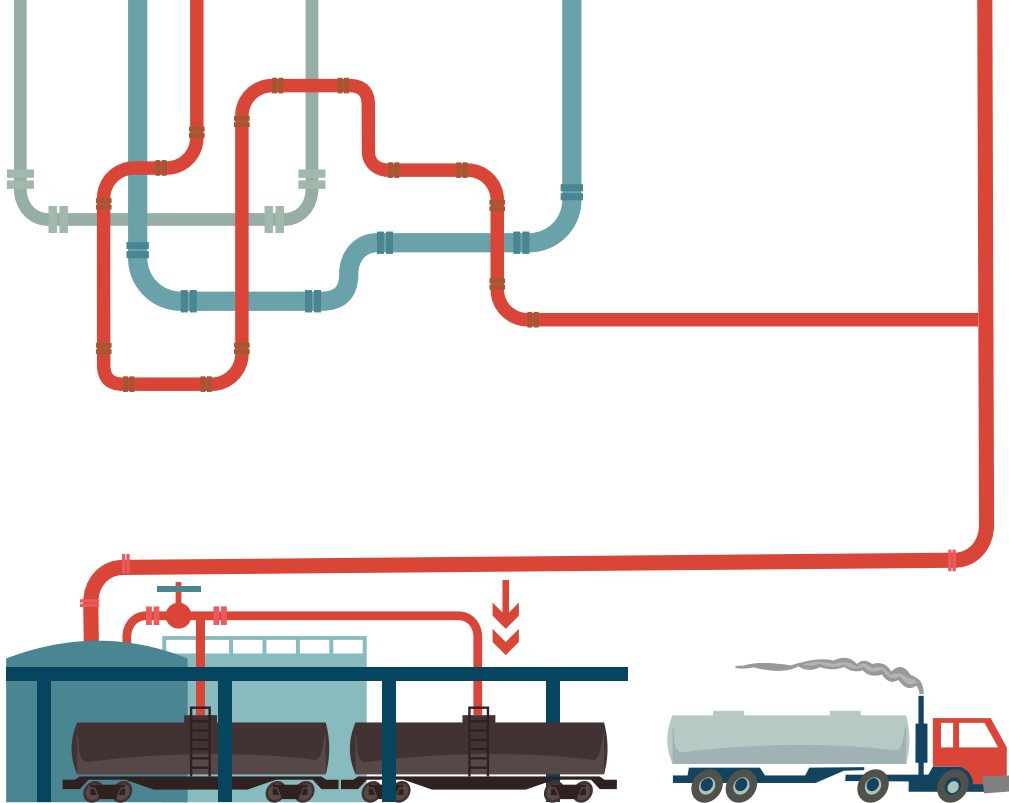

To become the regional specialist, with world-class standards in the Oil Fields services.

Mission

To create, strengthen, and expand our reach and our services by growing our network of partners with international leading services providers, and reaching new and bigger markets regionally in the MENA region and beyond.

Values

Our values define the relationships we aim to have with our partners and clients as well as our focus on human development of our teams.

Excellence and Quality

Commitment

Loyalty

Safety

Collaboration

Integrity

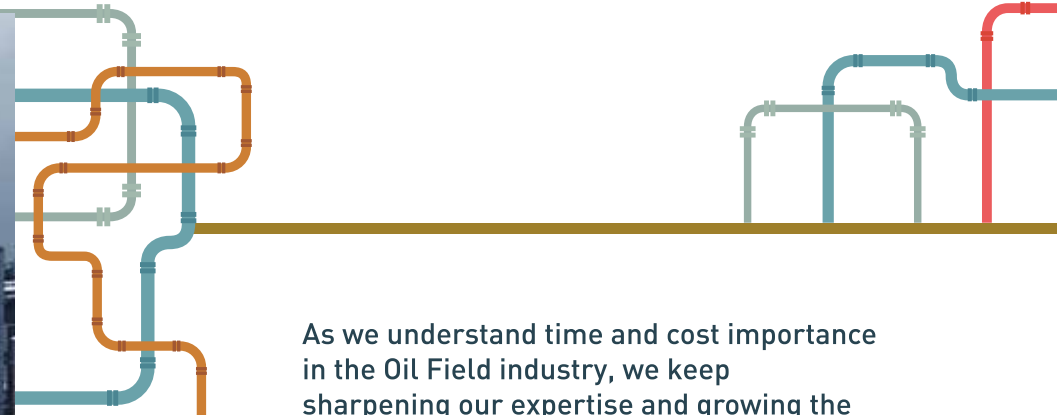

Reliability

Health, Safety & Environment (HSE)

FCO Oil Fileds Services is fully committed to the safety of its personnel, contractors and physical assets as well as the environment where we operate.

Our commitment to the HSE spans over multiple departments. From the safety practices on site for all the workers to the techniques we employ that are geared towards preserving the environment passing by to the regular checkups we conduct on the human capital and the physical assets to ensure Health, Safety and Environment are all preseved.

Strategically located along major global trade routes linking East and West, FCO has made Dubai and the UAE its main headquarters. FCO's strength is based on its extended network that spans over 4 continents with a presence in Iraq, Turkey, Egypt, Bahrain, and the UAE as regional offices as well as a presence in Perth, Shanghai, Manila, Los Angeles, Houston, Lagos, Johannesburg, Colombo, Mombassa and Mumbai and many more. The second pillar of FCO's trading strength is the experience and the expertise of its team. FCO trading operates on two market segments - energy and non-energy related products

Trading

At FCO we believe in supporting our customers and trading partners - your vision and your values are always our first priority. We strive to establish long-term relationships and efficiencies of scale, scope, and service. And most importantly, we strive to deliver the best quality at the best prices, every time in every way possible.

Procurement

For every project, there is a tremendous amount of supplies and materials to be purchased. At FCO Oil Fields Services, we understand the importance of acquiring exactly all that is needed in a timely manner and at the best cost.

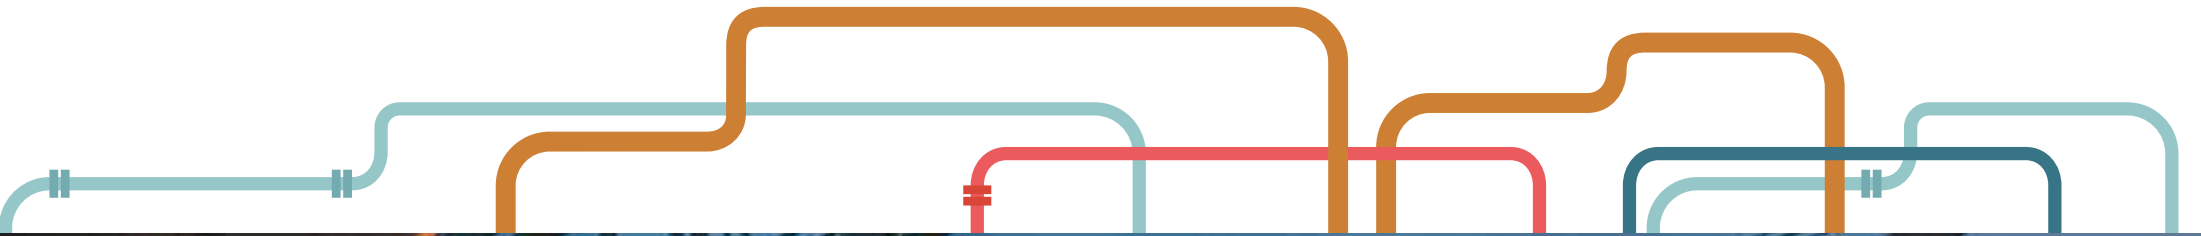

We have built a strong international network of suppliers with whom we deal regularly delivering to our various projects. That has allowed us to ensure our clients stay ahead and always be competitive.

Logistics

Mobilization can, sometimes, mean the success or the failure of a given project. At FCO Oil Fields Services, we don't stop at purchasing the best material but we make sure the sites are fully operational by managing the logistics to deliver everything on site and one time.

Our experience with logistics is paramount to ensure the quality of our service and it became one of our main strengths through building international partnerships and making sure the routes to deliver the assets and supplies to our clients wherever the projects may be.
